

Program 8:

Write a program which creates two threads, one thread displaying “BMS College of Engineering” once every ten seconds and another displaying “CSE” once every two seconds.

```
class BMSCE extends Thread {  
    public void run() {        try {  
        for (int i = 5; i > 0; i--) {  
            System.out.println("BMS College Of Engineering");  
            Thread.sleep(10000);  
        }  
    } catch (InterruptedException e) {  
        System.out.println("Interrupted");  
    }  
}  
}
```

```
class CSE extends Thread {  
    public void run() {        try  
    {  
        for (int i = 5; i > 0; i--) {  
            System.out.println("CSE");  
            Thread.sleep(2000);  
        }  
    } catch (InterruptedException e) {  
        System.out.println("Interrupted");  
    }  
}  
}
```

```
class ThreadDemo {
```

```
    public static void main(String args[]) {  
new BMSCE().start();    new  
CSE().start();  
    }  
}
```

OUTPUT:

```
BMS College Of Engineering  
CSE  
CSE  
CSE  
CSE  
CSE  
BMS College Of Engineering  
BMS College Of Engineering  
BMS College Of Engineering  
BMS College Of Engineering
```
